The world yoseikan budo championship is the most important event for our athletes. I would like to esteem the excellent work done by the yoseikan word budo federation team and the founder of our sport o soko Hiroo Mochizuki to succeed this event.

Many competitors, technicians, amateurs and relatives attend this competition, and without doubt, Tunisia is ready to welcome them.

The experience and professionalism that our country has demonstrated in the celebration of many world events are the best guarantee to ensure the success of this great event. The world yoseikan budo championship will be organized in Tunis in the most famous place of sport " palais du sport del menzah" .

The warm welcoming of Tunisian people, delicious typical Tunisian food and beautiful nature views will make a better mood for our event.

Finally, I wish a good luck to all the competitors and technicians that will participate to this competition and welcome warmly our guests to enjoy our country and world yoseikan championship 2017.

Best regards,
